

U.S. WARSHIP'S CREW
SEIZED BY CHINESEOFFICERS OF THE CONCORD
CAPTURED AT SHANGHAI.

The Whole Outfit are Now Prisoners and the News Causes Intense Excitement at Washington—Accidental Shooting Caused Serious Results—Japs Turn China Down—Cable News

London, Feb. 3.—A dispatch from Shanghai says a telegram has been received from Chin Kiang saying that a party of officers from the American warship Concord landed at Chin Kiang for the purpose of shooting game. They, by accident, shot a Chinaman. The populace became infuriated and attacked, seized and carried off the whole party. The commander of the Concord sent an armed force of blue jackets and marines to rescue them at all hazards. Further news in regard to the affair is anxiously awaited.

Washington, Feb. 3.—The reported kidnapping of the officers of the United States ship Concord at Chin Kiang, in China, reached Washington at late an hour to permit it to be inquired into in naval or diplomatic circles. Up to 10 o'clock last night no news on the subject had been received by any of the government officials. The news created a profound sensation and unless later reports show that the captured officers are at liberty other vessels will probably be hurried to the scene. Knowing the condition of the Chinese at the present time, and the way in which they are likely to deal with prisoners, there will be great anxiety until the safety of the officers is assured.

A court-martial will probably follow, as the policy of the United States Government is to require unusual care in such cases. A few years ago a test torpedo from a United States warship was exploded by some Japanese, who found it on the beach. One of them was killed, and, though the Japanese government declared it held the officer of the warship blameless, there was a court-martial and the officer was severely reprimanded.

The Concord is a twin screw steel gunboat of 1,710 tons displacement, carrying a main battery of six 6-inch breech-loading rifles. It is commanded by Joseph E. Craig, and has a complement of thirteen officers and 180 men. It arrived at Chin Kiang last Friday. The vessel was built at Chester in 1888, and has a speed of seventeen knots.

The other ships now belonging to the Asiatic station are the Baltimore, Capt. B. F. Day, protected cruiser, 4,413 tons, four 8-inch and six 6-inch guns; Charleston, Capt. G. W. Coffin, protected cruiser, 3,730 tons, eight 6-inch guns; Yorktown, Commander W. F. Folger, same as Concord; Detroit, J. S. Newell, cruiser, 2,994 tons, eight 4-inch guns; Machias, Commander E. S. Houston, gunboat, 1,177 tons, eight 4-inch guns; Petrel, Lieutenant Commander W. H. Emory, gunboat, 892 tons, four 6-inch guns; Monocacy, Commander R. E. Impey, paddle-wheel steamboat, 1,370 tons, six old-fashioned guns.

Rear-Admiral C. C. Carpenter commands the station with the Baltimore as his flagship. He will undoubtedly act with promptness.

SEND THE WHOLE CROWD HOME.

China's Alleged Peace Commission Goes on a Fool's Errand.

Tokio, Japan, Feb. 3.—The ambassadors sent here by China to negotiate terms of peace as was supposed, were given no power by their own government to decide any question whatever. Their credentials, therefore, were no better than so much waste paper, for Japan refuses to treat with any emissaries not authorized to determine issues on the spot and empowered to bind the empire of China to faithfully carry out any terms agreed upon.

China's ambassadors, with their imposing retinues, start today on their return home, having accomplished nothing, not even having been officially recognized as regularly commissioned agents of the government they claim to represent.

Paris, Feb. 4.—A dispatch from Tokio says the Chinese envoys were quite ignorant of the trick that had been played upon them by the Chinese government. They supposed that they had when their credentials were opened it was found they had no power either to conclude or sign a treaty of peace. Count Ito Hirobumi, president of the Council of Ministers, told them Japan was willing to reopen negotiations with a properly empowered embassy.

Skipper Saw the Rocket Lights.

Lowestoft, Feb. 4.—The skipper of a fishing smack that returned to this port yesterday says that about the time the collision occurred between the Elbe and Crathle he saw rockets set off from a large steamer. He bore down toward the vessel, but when within about 700 yards of it he lost sight of it. He saw another steamer burning blue lights. The skipper further says he saw a third steamer which passed without stopping to render assistance. The smack cruised about for some time, but no bodies or wreckage were seen.

Rochefort Gets a Royal Welcome.

Paris, Feb. 4.—M. Henri Rochefort, editor-in-chief of the republican journal, L'Intransigeant, who returns to France under an act of amnesty adopted last week, after having been in exile since 1889, arrived in Paris yesterday. On the arrival of the train in which M. Rochefort was traveling the pressure became so great that the crowd broke down the barriers and invaded the station, shouting "Vive Rochefort," "Vive Le Progrès."

Bombarding Forts on the Ilopo.

Zanzibar, Feb. 4.—Advices from Madagascar under date of Jan. 23 are to the effect that the French occupied Mojangia Jan. 16. The Hovas made no resistance. The French commander had entered the estuary of the Ilopo river and was bombarding the forts on that stream when the Hovas left.

JUVENILE ROBBERS CAUGHT.

Nine-Year-Old Frank Hafez Has a Record for Crime.

NEW BRITAIN, Conn., Feb. 3.—Frank Hafez, a daring young desperado, aged 9 years, and wearing knickerbockers, has been arrested at this place. He organized a band of highwaymen composed of ragged street urchins. Many New Britain children have been robbed by them.

Ralph Boyd, 13, who delivers milk for a farmer, was held up by Hafez and four of his gang. They youthful robbers took Boyd's money and disappeared in the woods. Hafez broke into and robbed the New Britain depot. A week ago he entered the Lyceum theater and stole \$225 from the safe. He broke into several country churches, stole the communion sets and sold them to a pawnbroker. He broke into nearly every grocery store here, stole all the money in the drawer, then turned the kerosene oil and molasses barrel faucets on, flooding the places.

Young Hafez and James Duffy were captured last night in the meat establishment of Andrews, Swift & Co., where they were rifling the money drawer. Duffy, who is 8 years old, was allowed to go home, while Hafez will be sent to the Connecticut School for Boys.

LIFE HANGS BY A THREAD.

Alabama Murderer Depending Upon a Pardon by Kolb.

BIRMINGHAM, Ala., Feb. 3.—The attorneys of Eugene Byars, who is under sentence to hang Feb. 8, will petition Capt. Kolb to pardon him. Gov. Oates has declined to interfere. Capt. Kolb claims that he was elected governor last August, and has addressed two messages to the legislature. If he signs a pardon the sheriff will ignore it; then the attorneys will go before a judge and sue for a writ of habeas corpus. If the judge declines to grant it, an appeal will be taken to the Supreme court. Sheriff Morrow says he will hang Byars unless Gov. Oates interferes.

TO CONVERT APPOMATTOX.

Movement on Foot to Make the Battlefield a National Park.

RICHMOND, Va., Feb. 3.—Lee camp, Confederate veterans, last night inaugurated the movement to ask the government to convert the field of Appomattox into a national park. Letters from Congressman Tucker and Judge Christian of Appomattox heartily endorsing the scheme were read and a resolution was adopted to appoint a committee to take charge of the matter and inviting all Confederate organizations and G. A. R. posts as well to co-operate in the undertaking.

Eight Men Are Frozen to Death.

Duluth, Minn., Feb. 3.—Word has reached here of the death by freezing of eight men in the Seine river gold fields. The dead are: John Barr, Thomas Barlow, William Carder, William Mackey, William Morton, Abraham McGuire, Charles McGuire, Thomas Purcell.

Labor Arbitration Bill Extolled.

Washington, Feb. 4.—The amended labor arbitration bill agreed on by the house committee on labor, after conference with representatives of the organizations of locomotive engineers, trainmen, firemen and conductors, has been reported to the house by Mr. Erdman of Pennsylvania. Labor leaders of all organizations extol the bill highly.

New Steamship Line to China.

Portland, Ore., Feb. 4.—Receiver O'Neill of the Oregon Navigation company has made final arrangements for a line of steamers to China and Japan. The Great Northern is a party to the deal. Arrangements have been made not only with the Great Northern but also with lines east of St. Paul, establishing a through all rail route, as well as one by way of the Great Northern lake line. The service for the present will be monthly and will be begun as soon as the contract is signed.

To Urge Passage of the Bills.

Milwaukee, Wis., Feb. 4.—The local lodge of the Brotherhood of Locomotive Firemen yesterday passed resolutions indorsing the legislative measures which affect railway men in this state and which have been introduced at Madison through the influence of the American Railway Union. The lodge also elected a delegate to appear before the committee on state affairs Wednesday to urge the passage of these measures.

Supplies Are Being Side Tracked.

Omaha, Neb., Feb. 4.—With the enormous quantity of money and its equivalent contributed to the destitute of Nebraska by the country in general and the \$50,000 appropriated by the Nebraska Legislature many people through the state are on the verge of starving and freezing to death. This is the result wholly of bad management of the State Relief Commission. It is claimed the supplies are being sidetracked.

Alexander Wants the Princess.

Vienna, Feb. 4.—King Alexander of Servia has proposed marriage to Princess Sybille of Hesse. The princess' parents promised to consider the proposition two years hence, provided that Alexander is then a king.

ICY DEATH FOR THREE
IN A MILWAUKEE CARFATAL ACCIDENT ON THE
STREET RAILWAY.

Brakes Didn't Work in Time and Trolley No. 145 Plunged Through an Open Draw Into the Kinnickinnick River—Thespians in a Wreck—Accidents of a Day.

MILWAUKEE, Feb. 4.—Through an open draw into the Kinnickinnick river, went Car 145 of the South Milwaukee system this morning, and three passengers were drowned. They were:

MOTORMAN JOHN KENNEDY.
MISS ANTOINETTE EHLMAN, kindergarten teacher.
MISS SCHMITZKUNTZ.

The car held eleven passengers, and several of the others were badly hurt, but were rescued by the crew of the fireboat Foley. The bridge had been swung to let the Foley through on its daily ice-smashing expedition. Because of slippery rails or lack of care on the part of the motorman, the car was not stopped in time, and plunged over the edge before the passengers had any warning.

Theatrical People in a Wreck.

Newton, Ill., Feb. 3.—A bad wreck of an extra freight train carrying a passenger coach occurred on the Indiana & Illinois Southern railroad two miles west of Oblong at 1:30 o'clock yesterday afternoon. Ford's theater company, billed here for this week, composed of eleven people, and two other passengers were hurt, all men. The three women of the company escaped without injury. The coach and two of the cars are a mass of ruins. None of the passengers will die. The train was running, it is said, over double the schedule time, when a rail broke, plunging five cars, including the passenger coach, down a fifteen foot embankment.

Children in a Church.

Duluth, Minn., Feb. 3.—The Swedish Lutheran church burned to the ground at 1 o'clock yesterday afternoon, entailing a loss of \$6,500, fully covered by insurance. The fire started during Sunday school services, which began at 12 o'clock. About fifty children were present, but they were got out of the building in safety. Scarcely half an hour afterward the roof collapsed and the entire building was burned down in two hours.

Seven Are Hurt in an Explosion.

Steuensville, O., Feb. 3.—Two explosions occurred yesterday at the Riverside furnace in this city, injuring workmen, one of them fatally. The explosions were caused by stock in the furnace settling and the accumulated gas blowing out tons of stock and bricks. The second explosion took place early in the afternoon and was the worst, the material blown out wrecking the roofs of all the buildings.

A BIG FIRE AT MINNEAPOLIS.

Blaze Caused by an Oil Lamp Explosion—Other Blazes.

Minneapolis, Minn., Feb. 4.—Fire yesterday destroyed the contents and building occupied by the Minnesota-Moline company, located at Nos. 408 and 410 Third avenue north. It is thought it originated from an oil lamp in the cellar. The loss on the building is placed at \$20,000, covered by \$12,000 insurance, and the loss on the contents \$75,000, covered by \$60,000 insurance.

Glass Works Destroyed.

Rochester, Pa., Feb. 4.—The Phoenix glass works at Monaca were totally destroyed by fire yesterday. The plant was equipped with an automatic sprinkler, which was guaranteed to flood the place in case of fire. For some unknown reason it did not sprinkle. The company manufactured the finest grades of pressed ware and bar goods. The loss is \$200,000, insured in eastern companies. A meeting of the stockholders will be held Tuesday to decide whether to rebuild.

Many Buildings Burn.

Versailles, Ky., Feb. 4.—A disastrous fire broke out here at 2 a. m. yesterday in the furniture store of Taylor & Co., and before the fire department arrived was beyond control. The following buildings were destroyed: J. Amnden & Co.'s bank, W. S. Taylor & Co. furniture; J. E. Neal, grocery store; H. Johnson, furniture; A. J. Kinney, tailor; J. M. Duckert's dwelling, D. L. Thornton's dwelling and the Woodford library. Loss \$53,000.

Mississippi Village Wiped Out.

Lulu, Miss., Feb. 4.—The little village of Jonestown, in Coahoma county, was completely destroyed by fire yesterday. Among the burned buildings are the Jonestown bank, Shaffer's dry goods, A. G. Jacobs' dry goods, Montgomery's law office and Ganing's drug store. Loss \$50,000, insurance \$30,000.

Flames in a Hotel.

Pittsburg, Pa., Feb. 4.—An early morning fire at McKeesport, Pa., near here, destroyed the Hotel Columbia, Warren's wholesale commission house and a three story brick dwelling. One man, name unknown, is missing and is believed to have been burned to death. The loss is estimated at \$75,000.

\$50,000 Loss at Chicago.

Chicago, Feb. 4.—Fire at 4 o'clock yesterday morning almost destroyed the Commercial block, Ninety-second street and Commercial avenue, South Chicago. The loss is estimated at \$50,000, fully covered by insurance.

Factory Burns.

Turner, Ill., Feb. 4.—The large creamery and cheese factory of Wilcox & Dooley at Winfield, this county, was destroyed by fire yesterday morning; loss \$7,000.

OHIO BANK LOOTED
BY BOLD THIEVESROBBERS MAKE A GOOD HAUL
NEAR LIMA.

Masked Men Held Up the Lockwood Institution and Get a Large Sum—Work Done With Neatness and Dispatch—Other Criminal Occurrences.

MILAN, O., Feb. 4.—The Lockwood bank was robbed this morning by masked men who did their work rapidly and with precision. A large sum was secured.

Minneapolis, Minn., Feb. 4.—The Hayward trial will be resumed today. Juror Dyer is reported all right again. The evidence today promises to be the most sensational which has yet been brought out. Dr. Nippert will again be put on the stand and he will be closely questioned as to the condition of Miss Gling when the autopsy was performed. It will be shown by his testimony that Miss Gling had an operation performed on her some time previous to death and experts among the medical fraternity will be called upon to prove that her condition could have grown out of nothing else. Dr. Nippert, it is said, will be on the stand the greater part of the day.

New York, Feb. 4.—Lawyer John T. McChesney of this city, who is one of the bondsmen for W. W. Taylor, the defaulting ex-treasurer of South Dakota, said yesterday Taylor told him Dec. 1, 1894, that it was necessary to raise \$50,000 to cover a shortage existing in the state treasury. Mr. McChesney raised the \$50,000 and Taylor then said that it would require \$72,000 to do the business. While Mr. McChesney was going to borrow the required sum Taylor found he was so deeply involved he couldn't hope to make good the shortage.

To Be Tried for Killing Her Husband.

Masachusetts, Ill., Feb. 4.—The case of Mrs. Ana Kahn, charged with complicity in the murder of her husband last August, will come up for trial in the Circuit Court in St. Clair County next Wednesday. The woman's alleged confederate, George Centrel, was hanged Nov. 29 for the part he took in the murder. The defense is not positively known, but it is thought that Mrs. Kahn's counsel will endeavor to prove her insane.

BACK AT WORK TO-DAY.

Legislators Will Resume the Grind for Five Minutes.

Springfield, Ill., Feb. 4.—The legislature will reconvene at 5 o'clock this afternoon, but no more than the usual Monday afternoon session of five minutes is expected. There is nothing in prospect for the week in either house that gives any promise of relieving the monotony of the proceedings. The business of both houses will be confined very largely to the introduction of bills. This week the committee work of both houses will begin in earnest. The bill prohibiting the manufacture and sale of cigarettes will come up before the house judiciary committee during the week. A strenuous effort will be made to secure the passage of this measure.

The work of the senate next week from all indications will be light. Few special orders are on the calendar and the regular order of business includes but one resolution, and that is the one offered by Senator Higbee deploring the death of ex-Senator and Representative McDonald of Jacksonville.

Ready to Buy Our New Bonds.

London, Feb. 4.—In its financial article yesterday morning the Daily News says that increasing readiness is shown here to subscribe for the proposed new American bonds, even without the stipulation of gold payment.

Last of the Marshals Interred.

Paris, Feb. 4.—With state honors the remains of Marshal Canrobert, the last of the marshals of France, were yesterday interred in the Hotel des Invalides. The funeral of the great soldier was the occasion of an imposing military display.

Government Party Defeated.

Berlin, Feb. 4.—In the elections for members of the Wurttemberg diet the government party was completely defeated and the democrats and ultra-nationals were victorious.

Soldiers Charge Rioters.

Sofia, Feb. 4.—Serious election riots have occurred at Tiernova. Gendarmes charged the rioters, injuring ten seriously.

Ke Felt in Italy.

Rome, Feb. 4.—Light earthquakes were felt yesterday at Placentia, Pavia and Genoa.

WILL DECIDE TO-DAY.

Mexico's Original Ultimatum Will Be Rigidly Adhered To.

City of Mexico, Feb. 3, via Laredo, Tex.—A note has been sent to Guatemala and an answer is expected to-day. To-day, however, is the day set for the declaration, and the question will be decided one way or another from a Mexican standpoint. The Associated Press correspondent is advised that Mexico will not recede from her original ultimatum. Negotiations are in progress between Mexico and Guatemala. There is hope of a pacific settlement. The government of Mexico, to be prepared for any emergency, is leaving no stone unturned. New York exchange 102½ premium. El Nacional says that Guatemala ignores the treaty of Sept. 27, 1882, and is preparing for war, and that Guatemala says: "Each to his own taste and God for us all!"

Negroes on Their Way to Mexico.

New Orleans, Feb. 4.—A party of 300 negroes arrived over the Queen & Crescent last evening. They came in a special train which left Birmingham Saturday night. These negroes are the first of a large party of perhaps 10,000 who will pass through the city during the next few months en route to Mexico to raise coffee.

London's Largest Church Burns.

London, Feb. 4.—Fire which originated in the furniture room completely destroyed the Queen's Avenue Baptist church early yesterday morning. The church was the largest in the city.

THE REVENUE AMPLIFIED THE CHICORA LOST

Carlisle Says That Receipts Exceed Expenditures.

WASHINGTON, Feb. 4.—Secretary Carlisle says that the revenue has exceeded the expenditures this year by \$22,000,000.

Washington, Feb. 4.—Uncertainties prevail in administration circles regarding the effect of the coming bond issue on legislation in the house, one party asserting that a call for bonds would spur on the silver men to increased activity, while others believe the bonds themselves would be the best evidence of the necessities of the treasury and therefore the strongest possible argument for the passage of the new currency act. Several attempts to canvass the senate have been made during the week and all results about the same on the surface. When the two new senators, Wilson of Washington and Clark of Wyoming, get here the senate will have eighty-eight members, of which forty-five will be a majority. It will be composed nominally of forty-nine soft and thirty-nine hard money men. There are, it is said, twenty-four senators who are for silver all the time. The other twenty-five, according to shrewd observers, are not so firm. It will be seen, therefore, that to the thirty-nine hard money men in the senate there need be added only a half dozen of the southern men to be able to carry through by a bare majority some such scheme as that now before the house.

The great difficulty which the administration will have to meet will be the pressure for time. The Rocky Mountain silverites, led by Teller, Dubois, Stewart and Jones, are said to be prepared to talk out all opposition not backed by an overwhelming majority. The situation, therefore, seems to be like this. The administration currency bill is likely to pass the house and be buried in the finance committee of the senate. If after a hard struggle and the direct application of the administration influence, the bill should get before the senate, the men from the silver producing states would be almost certain to talk it to death. So it is more than likely Mr. Gorman will be called on to supply actual necessities to the government. The necessity for the issue of the exchange notes or some similar device to provide money for current expenses is almost certain to be made evident by the special report to be made to the senate this week by Secretary Carlisle. This will show, it is said on good authority, not only that there is a deficiency for the current fiscal year of about \$55,000,000, but that in addition there are unpaid claims now hanging in the treasury amounting to fully \$10,000,000 more.

EXILE OF QUEEN LIL.

Dukes Belle of Sovereignty Will Have to Quit Hawaii.

Washington, Feb. 3.—Queen Lil herself may be a passenger on the steamer due to arrive at San Francisco this week from Seattle. The Hawaiian government from Honolulu. Private advisers from the islands are to the effect that the banishment of the queen was decided upon immediately after she was put under arrest, and there is a bare possibility Liliuokalani may have been deported by the first steamer leaving after the uprising. If she has not already been banished it will only be because the government of the islands wished to give her time to pack up her belongings and decide on her route. A resolution has passed the house of representatives calling for official information about the actions of Englishmen in fomenting the revolution and the attempt of the British minister to save their lives, and this resolution is to be pushed.

Corn Crop of 1894 Unusually Scarce.

Washington, Feb. 3.—In the report of the statistician of the Agricultural Department for December attention is called to the fact that the corn crop of 1894, in rate of yield, was one of the lowest on record. Only in one year (1881) of the last thirteen was it lower, the yield at that time being 18.6 bushels per acre. During 1894 the area planted in corn aggregated 76,000,000 acres, an increase over the preceding year of 4,000,000 acres. Severe drought and devastating winds reduced the acreage harvested for its grain value from 76,000,000 to 62,582,000 acres. There were over 13,500,000 acres cut for fodder.

Plate Glass Men Get Together.

Washington, Feb. 4.—Col. A. L. Conger of Ohio, president of the Diamond Plate Glass company, having large plants at Kokomo and Elwood, Ind., arrived here yesterday from Philadelphia. A gigantic combine of plate glass industries is on foot. Col. Conger said: "We intend to avoid anything in the nature of a trust, and have decided to accept the proposition from them to purchase outright the several properties of the several companies. They will enlarge their capital stock to \$10,000,000 in order to carry out this proposition. If the owners of other properties accept their proposition the plan will be carried out."

Furniture Exposition Opens.

Minneapolis, Minn., Feb. 4.—The Northwestern Furniture Exposition was opened this morning in the Mutual block, to run for a period of six weeks. All of the furniture manufacturers in Minnesota and western Wisconsin, numbering about fifty, have exhibits. The idea followed by exhibitors is somewhat similar to that on which the New York furniture exposition is based. It is expected retail furniture dealers from all western states as far as Washington will be in the city during the exposition.

Indiana Legislature's Slow Work.

Indianapolis, Ind., Feb. 4.—The Indiana Legislature has now been in session twenty-four days of the sixty-day and only five bills have passed. About 100 have been killed, leaving upwards of 1,000 in the committee room pigeonholes or safely hidden away in the pockets of committee chairmen. It is understood that the investigating committees who are expected to overhaul the state prisons and asylums and probe the management of the state offices will get down to real work during the week.

Emper

Berlin, Feb. 4.—The emperor and empress will leave for the coast to-day.

ALL BEYOND DOUBT

NO TRACE OF THE STEAMER
FOUND AT CHICAGO.

The Search Was Kept Up This Forenoon But Up to Noon Nothing Had Been Discovered—Vesselmen Have Now Very Little Hope For Her Safety.

CHICAGO, Feb. 4.—No trace of the Chicora has yet been found. The search has been kept up but without avail. Intense excitement was caused throughout Chicago yesterday by the report that the dismantled hulk of the steamer Chicora had been sighted on the floating ice of South Chicago and that some of its crew had been seen signaling for help. The news spread in a thousand ways and within an hour the Sunday quiet of the city was turned to more than the usual week-day activity. Word that two tugs had been sent to the rescue quickly followed the first announcement and every means of communication with the centers of information was kept busy until after midnight. Yet at 7 o'clock, when the tugs tied up at their docks on their return trip, the affair was still a mystery. Vesselmen generally have not much hope it can be the Chicora.

STRIKERS TOO MUCH FOR POLICE

Brooklyn Overran By the Strikers Around The City Hall

BROOKLYN, Feb. 4.—Strikers gathered around the city hall today in a vast indignation meeting. The police failed to control them in the least and they have run things with a high hand all day. There have been no serious encounters however, since last night. At 9 o'clock last night John Taylor, a non-union motorman who attempted to start a trolley car from the East New York depot on the Fulton street line, was attacked by a mob as he was leaving the depot. When the police finally rescued him from the mob of fifty men who had been kicking, cuffing, and clubbing him, his skull was fractured and his left ear was torn off. He died later in St. Mary's hospital.

GREENHUT NO LONGER RECEIVER

Courts Oust Him and Put in Mitchell and McNulty.

CHICAGO, Feb. 4.—The federal court removed J. L. Greenhut from the whisky trust receivership today, and appointed General McNulty and J. J. Mitchell.

BAD BOILER KILLED THREE MEN

Explosion in a Providence Ice House Causes Several Deaths

PROVIDENCE, R. I., Feb. 4.—The boiler in Carpenter's ice house exploded today killing three men and injuring seven.

HURT IN A WRECK.

East Bound Rock Island Train Derailed Near Topeka—One Car Burns.

TOPEKA, Kas., Feb. 3.—The east-bound passenger train on the Chicago, Rock Island & Pacific railroad, due in Chicago at 2:30 o'clock this afternoon, struck a broken rail at 2:37 this afternoon one mile west of Willard, a small town thirty-five miles west of this city, and was badly wrecked. Four persons were injured. The train was running at the rate of thirty-five miles an hour when it struck the broken rail. All of the cars except the baggage car, mail cars and the engine were derailed. The tourist car was thrown on its side, and all of the passengers injured were in that car. This car, as well as being overturned, took fire. The flames were soon extinguished and caused no great damage. Brake-man W. Babb received slight injuries. He remained on duty, however, and went back on the track and flagged a train which was following the one that was derailed. Surgeons went to the scene of the accident to give such assistance as they could to the injured. The track was blocked for twelve hours. Wrecking trains were sent from this city to clear the line and bring back the wounded. But meager particulars of the wreck have reached here, but it is said none of the passengers were seriously injured.

CHINA BUYS WAR MATERIAL.

Spends \$1,500,000 With Krupp—Supplies on Four Steamers.

LONDON, Feb. 3.—The Standard says to-day: "It is reported that China has bought war material from Krupp to the value of \$300,000. Part of the material, it is said, is already aboard two steamers, and two other steamers will follow with the remainder. The crews are to be paid treble rates."

A Japanese Official in London said

in an interview to-day that he did not expect that Pekin would be reached this winter. The object of the Japanese, he said, was not to capture Pekin, but only to reap the fruits of their victories. He thought that if the terms of the Chinese peace envoys were reasonable peace could be concluded before the end of the winter.

FORTUNE CAME TOO LATE.

Frederick Andrews Died the Day After Learning of Legacy.

SAN FRANCISCO, Cal., Feb. 3.—Frederick Andrews, aged 30 years, died at the county hospital last night. He was addicted to the use of opium, and his habit, combined with Bright's disease, caused his death.

Just before he died his sister arrived

from Boston having searched all over the United States. She announced to him that he had been left an estate valued at \$250,000 last November by his aunt, Mrs. S. Jeffreys of Boston.

He died the day after his sister's arrival, having first made over to her all interests in the property.

TOWN WAS LIVELY ON A COLD NIGHT

THIRD WARD FREE-FOR-ALL
QUELLED BY POLICE.

Later Two Business Men Fought on a
Slippery Sidewalk and Endangered
Their Bones By Falling Every Time
They Struck at Each Other—Travel-
er Got Lost.

THIS was a fairly lively town on Saturday night and you could get almost anything that you wanted. The first installment of trouble arrived at 6:30 when someone telephoned to the jail that there was a free-for-all-knock-down-and-drag-out fight in progress up on Court Street and Turnkey North buckled on his armor and started for the seat of war. When he got there he found two teams hitched to posts while the owners and pilots were rolling about in the snow trying to chew each other. There was no blood being shed and apparently the "bloody fight" had about petered out so the turnkey saw that the managing editors of the wagons were put in charge of their respective conveyances and started them home. The crowd were all Norwegians and had been drinking about town previous to leaving for home. They had gotten into what looked like a lively row but found that fighting in the snow was too cold a job to be enjoyable so it didn't take much argument to convince them that they ought to quit.

"Skyjdwizjdx!" said one of them waving his hand to the turnkey as he left and that probably made the whole thing clear—when you know what it meant.

Business Men in a Fight.

The second installment came about eleven o'clock when a fight that had not been scheduled on the program for the night came off on the slippery sidewalk on East Milwaukee street. The participants were two Janesville business men. One of them, a real estate agent, charged the other, an ex-merchant, with having told a story about him. One word led to another and soon they adjourned from the cigar store where the trouble began to the sidewalk in front. The argument had become quite heated by that time and while the ex-merchant insisted that he would rather go home than fight, the real estate agent preferred to punch. And he did. He aimed a blow at the ex-merchant and in doing so fell down. The ex-merchant didn't care about that; he said he still preferred to go home. Then the real estate agent struck at him again and missing his mark lost his footing and went down the second time. By this time the ex-merchant had begun to get hostile and began to wave his arms to.

"Punch him" was the laconic remark that a bystander made.

Fell as Fast as They Got Up. Then the ex-merchant put all the steam behind his fist that he could, and let go.

The sidewalk was one glare of ice, and it was hard work to stand it without attempting gymnastics, so when the ex-merchant missed the mark he aimed at, he fell too. Then the real estate agent, who had scrambled to his feet, aimed a kick at his prostrate antagonist. The latter squirmed out of the way and the real estate man went down again. Both regained their feet at the same time and clinched. Then a peace-maker pushed them apart and Chief Acheson appeared and offered advice that it was better to quit fighting and go home than to fight and go to jail. They both looked at it in that light, and it was probably the best thing to do; for had they been allowed to continue, doubtless both of them would have been injured. Neither could strike the other, but they might have broken their arms or legs by falling on the ice. As it was, no blood was spilled, no arrests made and no damage done, but the sidewalk was pretty well swept off by their coat tails.

Traveler Got Lost.

The third event came at 1:30 a. m. when the mercury and Officer John W. Hogan stood on A. F. Hall & Company's corner; the former at 10 degrees below zero, and the latter six feet from the sidewalk on the crossing. A lone traveler leading a steaming horse attached to a cutter came up Main street.

"What town is this?" asked the stranger.

"Janesville," replied the officer.

"Why, I thought it was Beloit. What is your name, if I may ask?"

"Hogan."

"Well, if your name's Hogan this must be Janesville," replied the traveler. "I live out on Rock Prairie and started for home. I don't know where I have been, but I have been riding for some hours and I thought I must be at Beloit. My buffalo robe has disappeared and I got so cold that I had to walk to keep from freezing to death, but if you'll start me on the road home I'll go right along."

"No you won't," replied the officer. "You'll go to bed and I'll take care of your horse; the poor beast is all sweat and you are too cold to drive home. Then you can start out early in the morning."

They settled it on that basis which was a good thing all around.

No handsomer lot of sleighs was never offered, all without a profit. F. A. Taylor.

BIGGEST KNAVE THE "PEACHER."

Milwaukee Lady Tells a Story For Rev. Dr. Eaton.

A Milwaukee lady sent this story to the Journal and asked that Dr. Eaton's attention be called to it: There was a distinguished Virginia jurist who, while doing circuit duty, never neglected to attend church wherever he might be. On one occasion he found himself in a small village, where his own denomination, the Episcopalians, had no representation. Nothing daunted, he aroused the young lawyers who were with him and the set out for their Methodist church.

The party were, however, a little late, and the Methodist parson saw cause for their delay in the ample shirt frills of the learned judge, who headed the procession; so he stopped in his discourse and said:

"If you had thought less of the adornment of your miserable body you would not have come to divine service late, disturbing everybody in their devotions. Never mind, at the day of judgment I shall be there to bear witness against you."

The courtly old gentleman for a moment was dumfounded by this attack, then gathered himself together, and said slowly:

"Sir, I have practiced law in most of the courts of this country, and for many years, and I have always found it was the d—st scoundrel who turned state's evidence."

ED. TAYLOR WRITES FROM ENGLAND

Janesville Man Is Enjoying His European Trip Very Much.

E. B. Taylor, formerly a clerk in Tarrant & Osgood's grocery, who is now traveling in Europe, writes the Gazette from Halifax, York, England, that he is enjoying his trip and that he intends spending three weeks in London. On February 20 will leave for a tour in Scotland and Ireland after which he will return home.

ODD BITS FROM THE STATE.

H. W. GARDNER of Milwaukee went trout fishing in Waushara county and liked the country so well that he bought five acres of land and staid there. Now he owns a fish preserve, a grist mill, a saw mill and a good water power, and still some people will insist that it's a waste of time to go a fishing.

JAMES WOLF of Sun Prairie, was carrying a hay knife in his bob sled. One of the runners sank in a rut in the snow tilting the box and the keen-edged knife nearly severed Wolf's leg.

ONE of Chauncey Depew's relatives will preach at Boscobel this year. His name is also Depew, which would seem to be a fairly good name for a minister.

MUTUAL INSURANCE LIKELY TO BE A GO

JANESVILLE COMPANY WILL
PROBABLY BE FORMED.

The Promoters of the Enterprise Say That the Scheme is a Good One and Liable to Come to a Head Very Soon—A Business Man's View of the Proposition.

Chances are now much in favor of Janesville's having a mutual fire insurance company. Steps looking toward that end were taken some time ago, but what was done was accomplished very quietly. The statement is now made, and upon good authority, that the plans are rapidly assuming form and that the organization will not only be formed, but very soon. This step is apparently the only relief from the almost prohibitory rates that the insurance companies have placed on Janesville property.

"The argument that the companies advance is 'we base our rates on past experience.'" Said a well known business man yesterday.

"Past experience" in Janesville has been for the past year something like this.

"Average insurance premiums paid approximately..... \$70,000
"Average fire loss (approximately)..... 6,500

"Total in favor of companies..... \$63,500

"That's about 'past experience.'" When we had the old "pump engines," the companies forced up the rates. The people complained and were met by this statement:

"Well if you'll put in water works and an adequate fire department we'll give you the benefit of the increased fire protection."

"We did that but did we get the reduction? We have the best fire department in the state for a town of this size. What is the result? An advance of last year, of twenty per cent. It's an outrage. The insurance companies take nearly ten times as much money out of the town as they leave here to pay losses.

Farmers Make the Scheme Work.

"I am strongly in favor of the Mutual Company. When the farmers started their mutual companies the insurance men said they would never succeed. Take the LaPrairie company for instance. They have never had a loss that they couldn't meet in two weeks if not sooner. Now a mutual company could be operated here equally well. It would be a larger concern, to be sure but 'past experience' has demonstrated that a mutual company could do pretty well here by paying out five or ten thousand dollars for losses and taking in fifty to seventy thousand dollars in premiums. Then too, that money would be kept here and not sent to people who are non-residents. Why, we could stand a loss like the tobacco warehouse fire every year and still make a good sum at the rate we are going now. The saving in insurance would support the fire department for years, figuring on 'past experience' and build sewers, city halls, jails and everything else that we need. The companies say:

"Our losses in the big cities are so heavy that we can't afford to do business in Janesville for less than we do."

"Thus they admit that they do pretty well in Janesville but that they have to protect themselves against larger losses. If this is the case why couldn't a local company take this cream and let the older companies take the city business? Why should we pay for Chicago's losses? I am in favor of the local mutual company and I am told by one of the men who is active in forming it, that the scheme will be a go. There is no reason under heaven why our rates should be advanced twenty per cent. while our losses average no higher and our fire department is made more efficient each year."

More than 90,000,000 Passengers,

Have been carried by the Lake Shore & Michigan Southern Ry. during the past twenty-five years. Very few were unable to find any fault. The rest were delighted. One of them recently said—"For several years past I have made from two to four trips each month between Chicago and New York and almost always accompanied by from one to three or four others. I believe as I am informed by your conductors, that I have made more trips between Chicago and New York than any other man during the past few years. I have always traveled over your road in preference to any other, because by careful comparisons with others I have found not only that the road itself is far superior, but the table and the service are in every respect the best of any roads I have ever traveled on. The conductors, stewards, waiters and porters I have found to be uniformly courteous and attentive, adding greatly to the comfort of those who are obliged to travel as much as I am. Trains leave Chicago as follows: 3:00 a. m., 10:30 a. m., 3:25 p. m., 5:30 p. m., 8:45 p. m., daily, and 11:30 p. m. daily except Sunday. H. S. Barlow, T. P. A., 139 Eddie Street, Milwaukee, Wis.; C. TO LIFT GEN. RUGER IN RANK AND PAY

JANESVILLE MAN TO BE MADE
A MAJOR-GENERAL.

Probably the President Has Signed the Bill 'Ere This As It Was a Part of the Resolution Conferring An Honor on General Schofield—Salary Is \$7,500 a year.

Before these lines are read, in all probability, Brigadier General Thomas H. Ruger has been advanced from his present rank to that of Major General with a yearly salary of \$7,500, an increase of \$2,000 a year. His advancement is due to a provision that was kept dark while the bill reviving the grade of lieutenant general and conferring it on Major General Schofield was before congress. Most of the members of both houses were of the impression the bill concerned General Schofield alone and would only be a reward of merit to him. As a matter of fact, when he is made lieutenant general it will create at once a vacancy in the grade of major general, the law having fixed the number of those officers at three. As the bill in question passed the house Saturday the jurisdiction of congress is at an end. The bill went to the president today, and he had already announced his intention of signing it. The promotion of Major General Schofield will make a vacancy in the list of major-generals, which by law must always be kept up to its quota of three officers. The ranking major-general will be Major-General Miles now in command of the Department of the East. The vacancy will be filled by the appointment of Brigadier-General Thomas H. Ruger, commanding the Department of the Missouri, with headquarters at Chicago. This vacancy was promised Brigadier-General Ruger by the president when Brigadier-General A. McD. McCook was promoted over him to the grade of Major-general some months ago, a vacancy being created at that time by the retirement of Major-General O. O. Howard. Brigadier-General Ruger will remain in command of the Department of the Missouri upon his promotion.

HOW TO MAKE YOUR OWN DRESSES

THE PROPER WAY TO CUT A WAIST LINING.

Directions For Drafting a Pattern to Suit Any Figure—Measurements Must Be Accurate—Allow Eleven Inches at Waist Line For Seams.

[Copyright, 1895, by American Press Association.]

The system of waist cutting and fitting is always the same and based upon the same principles, though sometimes a very pronounced new style may render certain changes or modifications necessary. At the present time the waist is cut in eight pieces, or at least the lining is—viz, two fronts, two side fronts, two side backs and two center back pieces. A diagram is given showing their form and relative positions. This gives what is called a model basque, and this is the foundation of almost all the waists, whether plain basques, round waists, coats or princess gowns. To adapt it to the different requirements is so easy that any one can do it who knows anything at all about dressmaking.

With the outline of the model basque drafted, a low bodice can be made by marking off that portion to be cut away,

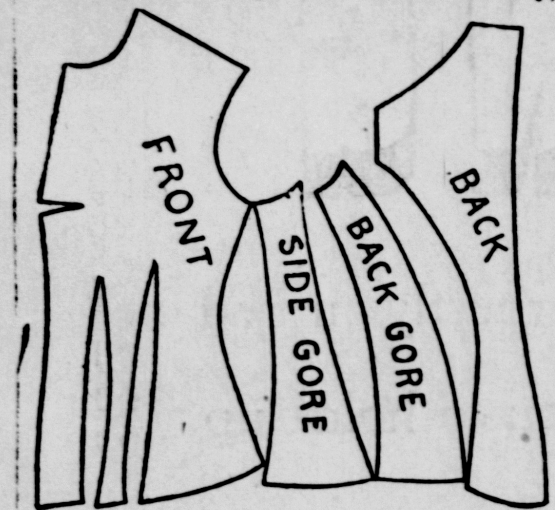

DIAGRAM OF MODEL BASQUE.

whether V shaped or rounding. If the waist is too long, it can be shortened by making a fold in the pattern at the waist line, thereby taking out the unnecessary length. In the same place—viz, at the waist line—the basque can be lengthened by sliding the pattern down after the upper portion is cut to the proper length. To widen it allow as many inches as are necessary and divide them, adding the fraction to every seam as it is cut out. In that way the proper proportion is maintained.

In these days it is so easy to purchase a reliable pattern at a nominal cost that it is scarcely necessary to give detailed directions as to drafting a pattern, but it may be well to say a few words to those who cannot get exactly such a pattern as they want.

A stiff paper should be laid flat, and an outline drawn as nearly like the diagram as possible as to form, but as large as will be required, with an inch or more of space all around to spare. The length of the waist in front should be taken and the number of inches marked on the paper. Three inches back from this the shoulder measure should be taken and marked, then the length of the shoulder and the length under the arms. The width across the bust from the top of the underarm seam to the notch should be taken and marked across with pencil. The first dart should be 2½ inches from the front seam at the top and taper to 2 inches at the bottom. The back dart is from one-half to one inch higher than the front, according to the figure of the wearer. As the proper height of the darts cannot be determined until the waist is tried on, it is better not to cut out the darts until after it is fitted on.

The back centerpieces should be measured in the same manner and the length of the waist marked. There is a slight hollow in the back, as will be noticed in the diagram, the narrowest part being in the hollow at the waist line. The side forms must be traced out with a pencil in a graceful slope. If the wearer be short and thickset, these seams can reach higher, and that will give greater apparent

[Dotted line shows where to cut out to shorten waists.]

length to the back, and consequently a more slender appearance. The back gore or side form should follow the diagram in shape and actual measurement for length, and the side gore or underarm piece should be as near like the shape of that in the diagram as possible, the whole to measure about 11 inches more around the waist line than the actual measurement, as there are 22 seams to be taken in. If they are taken in half an inch deep, that brings the waist to a snug fit. In cutting lining I have always found it best to allow full 12 inches for taking in. Some allow more. When the lining is fitted, that which is superfluous can be cut away, but it is not easy to add to it. When the outline is marked on the paper, cut it out and try it against the figure, and if it is right in the neck and arm size and length of waist the lining may be cut. It requires 1½ yards of drilling or silesia, and it must be cut on the straight.

Buy Good Pictures.

Nothing so betrays a lack of culture or its possession as the character of the pictures to be seen in the home. It is better to have one good painting, which age will improve and the growing reputation of the artist increase in value, than to have your walls crowded with impossible water colors in gorgeous frames and cheap etchings and crayons, which are simply the fad of the hour. By frequenting galleries and studios, instead of blindly relying upon the stock of the so-called art departments of dry goods stores, you can buy often at the same cost a picture which will be a joy forever, instead of a miserable makeshift.

Concerning Windows.

Grouped windows give just as much light and air as the usual arrangement of two or three all alike evenly spaced in the wall. They look a great deal more artistic and generally furnish a room better.

WANTED.

A Satisfactory Answer to a Question of Finance.

A member of congress well known for his knowledge on financial questions, and also his knowledge of that knowledge, was sitting in his hotel recently, when he was approached by one of those reputable appearing men one sees about the capital of the nation, whose true character doesn't always show in their attire or manner.

"Excuse me," said the intruder, "but are you not Mr. Blank?"

"I am," replied the member affably, but with dignity commensurate with his exalted position.

"I believe you are thoroughly posted on all financial questions?"

"My friends and the press, have accorded so much to me," smiled the statesman.

"You have given the subject a vast amount of study, have you not?"

"More than to anything else."

"And no doubt feel quite capable of giving a perfectly satisfactory answer to any question that might be asked?"

The member at once jumped to the conclusion that he was being interviewed, and got himself ready to give an answer that would be a feature in print.

"I think I could, if any man can," he replied with pride.

"Well, I have a question on finance that I should be greatly pleased if you would answer to my entire satisfaction."

"Very good; what is it?"

"Will you lend me a dollar for a day or two? I'm broke."

"By George," said the member when he told the story, "he could have caught me for five just as easy if he had come at me for so much."

LIVING ABROAD.

It Is Not So Cheap as Commonly Reported to Be.

"A man soon gets cured of many long cherished traditions respecting the cost of things in Europe by a little bit of personal contact with old world institutions," said Colonel W. C. Chapman of San Francisco. "I had an idea until I sojourned abroad this summer that the cost of living was much lower in London, for example, than in any American city. To my sorrow, I found out that to live in good style in London was dearer a good deal than to exist comfortably in New York. To be specific I went to the Savoy, the best hotel in the great metropolis, and ordered a dinner not at all more elaborate than I am used to having at home. There are some excellent restaurants in Washington not noted for their cheapness where that dinner would have cost about \$5.50—certainly not more than \$6. The bill brought me called for £2, or \$10 in American currency. Of course there was a small bottle of wine, but it was innocent of ice, as neither love, money nor tears will make those beautiful Britishers give you any ice with your drinks. I don't want to ever hear again of European cheap living; it's a myth. I can live better in this country on less money and have a ton of ice a day, if I want it, gratis. You may be able to live over there on a little money, but a man can exist very cheaply in China if he will limit himself to rice."

A Strike at Church.

A curious speech was delivered the other day in a little church not far from Maidstone, England. The bell had been ringing long after the usual time for service to begin, and the congregation sat quietly waiting and wondering. At last the bell stopped, and the organist struck up the tune to which the parson always progresses up the aisle; but no parson came. The bell-ringer shuffled up the aisle, turned and faced the congregation, hummed, wiped his mouth with the back of his hand, and thus delivered himself: "I ain't going to ring no more. I'm tired of this job. It's no use for you a-waitin'; he ain't a-comin' ter-day."

A Healing Shepherd.

A shepherd who can tell from seeing a patient's hair what his disease is, and whose cures are miraculous, attracts hundreds of people daily to the village of Radbruch, near Harburg, in Germany. To protect his own health he refuses to see more than a fixed number daily, who must hold tickets which were distributed by the local constable, till a firm of speculators bought them all and sold them for higher prices. The police authorities are investigating the matter.

Classification.

In a certain town in the north of Yorkshire a traveling American found an omnibus which carried, first, second and third class passengers. As the seats were all alike the traveler was mystified, but not very long. Midway of the route the omnibus stopped at the foot of a long, steep hill, and the guard shouted: "First-class passengers keep your seats. Second-class passengers, please get out and walk. Third class passengers, get out and push."

THIS DAY IN HISTORY

211—Lucius Septimus Severus, Roman emperor, died at York, England.

1615—Giambatista Porta, inventor of the camera obscura, died. Porta was an eminent Italian philosopher. He promoted the cause of physical science by experiments in optics and also founded schools. His house at Naples, where he was born about 1540, was the seat of an academy founded by him.

1840—The United States bank, an institution chartered by Pennsylvania after it had been abolished by government action, suspended finally. Its entire capital had been sunk.

1881—Thomas Carlyle, "writer of books," died in Chesham row, Chelsea, where he had lived over 40 years; born in Scotland 1795.

1890—Centenary of the United States supreme court celebrated.

BUSINESS PRINCIPLES NEEDED.

The question with regard to the Pacific railroad debts is one of business and nothing else. It is probably true that gross wrongs have been committed in the management of the affairs of those great corporations, but the point of controlling interest to the government is that of getting its money by making the best possible terms with the creditors, rather than to undertake the doubtful business of operating the road on its own account.

GRESHAM'S SPHERE.

Secretary Gresham tried to bestow a special favor on Japan by making the treaty with this country terminable after eleven years, instead of the usual one year. The Senate amended the treaty by inserting the customary terms. The eccentricities of Gresham in diplomacy indicate that he narrowly escaped being a genius in statecraft, and everybody knows what to call a man who has narrowly escaped being a genius.

THE ROADS NEED THEM.

A statistician places the number of professional tramps in this country at 40,000, and their cost to industrious people at not less than \$8,000,000 a year. When the movement for good roads is fairly under way provision ought to be made for getting some work out of this army of vagrants. The offer of work, with pay, usually results in their sudden disappearance.

The German government says it shut out our meat on sanitary grounds. The house, or rather its democratic majority, virtually gives the lie to Germany by passing the bill for the repeal of the differential duty on sugar. Still the democrats cry "We'll give you the markets of the world."

Senator Mills' recent remarks about the republic of Hawaii being maintained by sugar men may get Claus Spreckles in a peck of trouble with the royalists of Hawaii, who have regarded him as their banker, if not their natural leader.

It will take more than one consecutive democratic administration and congress to injure seriously the credit of the United States, and the voters may be trusted to see that the country will never have more.

It is hoped that Mr. Cleveland may be more successful as a mediator between Mexico and Guatemala than he was in the China-Japan affair.

Presidents continue to resign, but the resignation fever can never hope to get into the White house as long as those sentry boxes remain.

Ex-Governor Pattison is trying to be to the democratic party what the Russell family has long been to the Massachusetts democrats.

Congress ought to be ashamed to tuck financial legislation to the regular appropriation bills, as amendments. It smacks of cowardice.

Jerry Simpson now threatens to become a single tax lecturer. Who have the single taxers done to Jerry?

If indications count for anything then all the perpetual motion cranks are working on currency schemes.

A man need not be superstitious to believe in the "bad luck" of the Cleveland administration.

Milwaukee Charity Fund Divided.

MILWAUKEE, Feb. 3.—The executive committee of the charity ball has divided the proceeds among the following charities: Associated charities, \$700; Humane society, \$200; Kindergarten association, \$200; Hebrew Relief association, \$200; Woman's Relief corps, \$100; German Relief association, Children's hospital, \$100 each; balance, \$79.35, to a private charity.

West Virginia Offered \$50,000.

CHARLESTON, W. Va., Feb. 3.—A letter from Henry L. Davis was presented to the legislature to-day offering to donate \$50,000 and a suitable site for the proposed industrial school for girls in case a reasonable appropriation is made for its support and it is located at a central point easily accessible by rail, such as Davis or Elkins.

BRIEF LOCAL NOTES.

THE PRESBYTERIANS invite all their friends to a supper and social at the home of Dr O. G. Bennett, on Milton avenue, tomorrow (Tuesday) evening. Supper will be ready at 5:30 p. m., price 25 cents. Free sleighs will run from the church to the house from 5:30 during the evening.

THE LADIES' AID SOCIETY of the First M. E. church will serve supper in the parlors of the church Wednesday evening, February 6 from 6 to 8 o'clock. A cordial invitation is extended to all to come and help us eat roast turkey and other good things.

JUDGING from hearsay, we think there are going to be a number of entirely new costumes at the N. O. W. masque ball tomorrow night. Tickets for the same are on sale at Smith's pharmacy. Invitations must be presented.

DON'T monkey with a poor rubber. You might as well have the Goodyear gloves. They have the reputation the country over of being the best. We don't hold up our customers when we sell them. Brown Bros. & Lincoln.

To become well known one must do the best work in their line. From the number of calls we have to do plumbing we must have done some pretty nice work. Green & Allen.

OUR February clearing sale opened today, under very favorable circumstances, the low prices seem to be attractive from the number of sales we have made. T. P. Burns.

WE have the shoes. Our prices are right. We are doing our best to start you. You buy shoes we want to sell you. We will give you a square deal. Brown Bros. & Lincoln.

You will find one of the best plumbing establishments ever shown in the city at 6 W. Milwaukee street on the bridge. Green & Allen.

THE working team of the Modern Woodmen will meet at Liberty hall, at 7:30 tonight. By order of H. J. Marsden.

EVERY piece of plumbing we do we guarantee to be the best. No poor work is ever sanctioned by us. Green & Allen.

FEBRUARY clearing sale all this month at T. P. Burns. Great reduction in prices.

TOLD BY MISS BEUCKNER.

She Says Some One Cried "Push Her Off!" but She Held On.

LONDON, Feb. 3.—Miss Anna Beuckner, the only woman saved from the North German Lloyd steamship Elbe, in an interview has added the following to the statements she has already made about the disaster:

Miss Beuckner says that when the first boat capsized she swam until she caught one of the oars of the other boat which had been launched and then somebody on board the latter craft shouted: "Push her off!"

She also says they tried to push her off but she held on so firmly to the oar that she was finally pulled on board. Continuing, Miss Beuckner says that the officers of the Elbe miscalculated the time that the steamer could keep afloat.

The skipper of the fishing smack Competition, which has arrived at Lowestoft, has reported that in addition to a mail bag he saw near the scene of the collision a quantity of wreckage, apparently from a big steamer, and he picked up a platform used for painting ships' sides.

Messrs. Hoffman, Sehlegel and Vever, survivors of the Elbe disaster, sail for New York to-day from Liverpool on board the Cunard steamship Umbria.

OYSTER MEN PROTEST.

Say the Typhoid Fever Scare in England Is Not Justified.

NEW YORK, Feb. 3.—The Tribune says this morning: "The typhoid fever scare has been the means of stopping entirely the shipment of American oysters to England. About 3,000 barrels a week were exported from this country, worth to American exporters \$5 a barrel.

"The oyster planters of the Great South bay, whence the blue point, the chief oyster exported, comes, think this a great hardship, for they say the water over the oyster beds is not in the slightest degree contaminated by sewage from the cities. In this statement they are sustained by ex-Fish Commissioner Blackford, who knows as much about oysters as any other man in the state.

FROM EGGS AND APPLES.

An egg expands when it is frozen, and breaks its shell. Apples contract so much that a full barrel will shrink until the top layer is a foot below the chine. When the frost is drawn out the apples assume their normal size and fill up the barrel again. Some varieties are not appreciably injured by being frozen if the frost is drawn out gradually. Apples will carry safely in a refrigerator car while the mercury is registering twenty degrees below zero. Potatoes, being so largely composed of water, are easily frozen.

Will Race in the Open Matches.

LONDON, Feb. 4.—The Times says Mr. Allen, the owner of the yacht Dakotah, will send her to race in all the open matches in the Riviera regatta. The paper adds that Howard Gould will name his new Herreshoff twenty-rater Niagara.

Shot While Stealing Coal.

DENVER, Colo., Feb. 3.—Frank Wiscomb, while attempting to steal a sack of coal from a Union Pacific freight car, was shot and probably fatally wounded by Special Policeman Peter Dalv. Wiscomb had no work, and determined to steal rather than see his wife and baby starve and freeze.

TREASONABLE REASONING.

At Erfurt, in Germany, there is a young man who has conceived so violent a hatred for the existing form of government in his country that he has tattooed all over his body phrases which are described as insulting to Emperor William. In the middle of his chest are the words: "Nieder mit den tyrannen" (Down with tyrants). In England anyone might with perfect impunity indulge a harmless little eccentricity of this kind, but, unfortunately for the young socialist in question, there is the conscription in Germany, and conscripts are subject to a minute inspection by the army doctors. When it came to his time to be examined there was quite a commotion. The captain who presided at the ceremony ordered him to be put under arrest, and he now awaits his trial for high treason.

A Stone Blotter.

A stone blotter pad being introduced is made of bibulous stone that is said to absorb ink more readily than any blotting paper in use. It is formed by compressing the sediment deposited by certain hot springs, which, having been accumulating for ages, "is available in inexhaustible quantities." It is highly porous, and will, it is said, take up a surprising quantity of ink, requiring only occasional scraping with a knife to keep it clean and ready for use.

You can save

six cents a can by using the new **Horsford's Baking Powder**, because it requires less quantity than any other.

in Janesville. A few days ago we were earnestly urged by an important man to agree to a combination to hold up prices on certain classes of goods. Our reply is always the same to such overtures: "This house must make its own prices, irrespective of any other house in Janesville and we will not combine against the public."

We always work for a profit, but it is not how much we can get but how little we can afford. Not selling at cost there is no necessity to form leagues to raise prices, when any articles in which we deal are cut in price, for a motive as is sometimes the case, the prices are here instantly reduced in order to be consistent with our pledge that all our purchasers shall be protected at every point and to meet the guarantee that

GAS NEARLY KILLED BOTH MAN AND WIFE

NARROW ESCAPE OF MR. AND MRS. L. GILBERTSON.

Stove Filled With Coal and the Room Flooded With Deadly Fumes—Help at Hand Just in the Nick of Time—Other News From About the Town.

Mr. and Mrs. L. Gilbertson of South Jackson street, were found unconscious Sunday morning. When they retired Saturday night nothing seemed amiss, the stove being left just as it had been all winter. The night promised to be so cold, however, that an extra supply of coal had been poured in and this in some measure banked the fire. Sunday morning came but there was no sign of life from the room where Mr. and Mrs. Gilbertson lay. The house was full of gas and it was seen that prompt restorative measures were necessary. No effort was spared but for some time hope of a favorable outcome was slight. Late in the day the effects of the gas began to pass off and today Mr. and Mrs. Gilbertson are much stronger.

CHARLES NORDECK's athletic exhibition didn't draw a very large audience Saturday night. Nordeck is a very clever wrestler who never lets dissipation weaken his muscles; but Will Holmes, who met him Saturday night, was no match for him at all. The exhibition of heavy weight lifting was also a very good one. Nordeck will take part in the coming tournament at Milwaukee.

THOMAS COSTELLO had his face cut open by a hammer head which flew from its handle this morning. He was working in the Chicago & Northwestern machine shops when the accident happened. Dr. Sutherland found it necessary to take several stitches to close the wound.

THE Woman's Foreign Mission circle of Court Street M. E. church will meet with Mrs. Frank Stevens, 164 North High street, on Wednesday of this week, at 3 o'clock p. m. Subject, "China and Its Present Condition." Each member is requested to bring some item of missionary information.

J. W. COCHRANE, a prominent Centralia lawyer was in town over Sunday, visiting with his two boys Willie and Orson, who are attending the school for the blind. They were the guests of the Grand.

FREDERICK RAU, Jr., of the firm of F. M. Marzuff & Co., and Miss Maggie Dalton, daughter of Mr. and Mrs. Thomas Dalton will be married this evening and will live in one of the Jeffris' flats.

PATROLMAN JOHN KRUSE was considerably better today and was able to sit up a short time this morning, although his physician insists that he must not try to get around much yet.

WILLIAM BLADON, cashier of the new Bower City bank, went to Chicago today to buy furniture. I. C. Brownell, of the board of directors, went with him.

Mrs. M. L. FORD gave a very pleasant piano recital on Saturday, those who took part being Madge Feeley, Mamie Kolie, Gertrude Brown, Genevieve Brown, Alice Petric and Tessie Gibbons.

A DOZEN GUESTS OF RIPE AGE

E. G. Fifeid Celebrates His Seventy-Eighth Birthday Among Old Friends.

A dozen people whose years aggregated more than a round thousand, helped E. G. Fifeid observe his birthday Saturday. They made it very jolly, but if the winter is prolonged six weeks, they will be directly responsible. Saturday was not only an important day for Mr. Fifeid—it was a day for Uncle Groundhog. When, in honor of the birthday party, old Sol shone out brightly, it gave the Groundhog family just what they wanted—a chance to see shadows and make a cold weather forecast. The birthday party wasn't chilled by any such circumstances, however, and the seventy-eighth milestone of the host was passed with appropriate observances. Those who enjoyed the occasion were:

Messrs. and Mesdames:

Vonny Atwood, David Jeffris, E. Leavitt.

Messdames—David Fifeid, T. B. Fifeid, S. A. Bull.

Messrs.—John R. Bennett, G. W. Chittenden, F. S. Lawrence.

DR. EATON DOESN'T BACK DOWN

Reiterated All His Charity Ball Charges and Made Many More.

Dr. Eaton's Milwaukee church was filled to overflowing last night, when he preached upon the "Charity Ball." He proposed, he said, to stay in Milwaukee at least ten years, and during that time society would mend its way or he would know the reason why.

All the charges that he made were reiterated and amplified; and he told of dudes who were drunk, fights, immodest dresses, and many other things; characterizing the whole thing as a reinstatement of heathenism. He held that parlor dancing was as wicked as any other kind, and a step toward pugilism and barbarism.

B. M. A. MEMBERS TO PAY OR QUIT

The Dues Must Be Forthcoming or the Debtors Forthgoing.

The Business Men's Association adopted heroic measures at their meeting Saturday night, when the secretary was instructed to collect all back dues from members, and six months in advance, to August 1. All who refuse to pay by March 1 are to be dropped. Albert Kavalge, H. S. Gilkey, George D. Simpson, L. R. Treast and F. H. Jackman, were appointed as an amusement committee, and the meeting was adjourned until February 19.

A NEST OF ROBBERS ON RIVER STREET

ALDERMAN WINSLOW HAS LOST ALL PATIENCE.

Says a Gang of Thieves Steal Goods and Blankets From the Sleighs in Front of his Store—Palm Street Hen Roost Was Robbed Last Night.

Thieves have been harassing Alderman Winslow until that usually smiling and urbane official, has become aroused.

"I want you to come over to my store," he said to Chief Acheson last night. "There is a den of thieves near by and we'll wade into their lair and gut it!"

Chief Acheson said he would and is now prospecting in the locality, and hunting up the gang, that the alderman referred to.

"There is a robber's roost in this neighborhood," he said today, "and I am determined to have it broken up. A few days ago a customer was in here and purchased a bill of groceries, including two sacks of flour. He put them in his sleigh out in front and spreading a robe and horse blanket over them came back to get a cigar. He wasn't here in two minutes, but when he went out his groceries were gone. He came in to tell me of it, and when he went back to the sleigh he found that the thieves had returned and captured his robe and blanket. They are bold robbers. Last week they took a blanket off my horse here at the back door, and got away with it. Hardly a day passes that they do not make a haul of some kind, and I propose to have the nest broken up."

A number of farmers have lost packages lately, which have been taken from their sleighs; and last night a Palm street poultry house was visited by thieves who stole a whole flock of choice hens. Chief of Police Acheson is now in charge of the whole matter, and is making close investigation in hopes of capturing the gang.

JANESVILLE NEWSPAPER SELLERS

Inter Ocean Prints Portraits and Sketches of Local Lads.

Janesville is ranked as one of the best towns in the state by Chicago newspaper circulators. From six hundred to seven hundred Chicago dailies are sold here, and the boys who handle the route are written up by today's Inter Ocean, a group portrait being also given. The Inter Ocean says:

One of the most successful of the younger class of newsdealers is Harry S. Haggart. He started as a newsboy when ten years old, receiving ten cents for delivering a few papers on Sunday. He continued at the business during the eight years that have passed since then, attending school and delivering papers at the same time. He worked for V. D. Atwood for three years, went into partnership with him, and finally bought him out. He graduated from the high school in June, 1894, and now at the age of eighteen years, is proprietor of a very successful business. The accompanying group shows Harry Haggart and sixteen of his boys. "Most of my boys have not much of a biography, but they are all honest and trustworthy" is the recommendation he gives them.

Will Rogers, one of the best boys in the service is now 19 years old and has been handling papers for eight years. He has a bank account and owns two evening paper routes.

Has Sold Papers for Ten Years.

Otto Bergsman sold papers in Chicago for six years and has been in the service at Janesville for four years. "Dutch," as he is familiarly called, is now selling papers for the newstand at the Chicago & Northwestern depot week days, and sells the Sunday papers for Haggart. He is 17 years old and has supported himself for years.

Tom Flaherty has served for five years. He sells papers and delivers a route also. Sixteen years of age and good habits. He makes his papers furnish him a good support.

Joe Delaney, sixteen years old, has put in six of them as a news boy.

Fred Church has served but three years and has reached his eighteenth birthday.

Clarence Smith commenced selling papers when he was ten years old and has kept it up for five years.

Morris Dalton has also been at the work five years and is now sixteen years old.

Pat Delaney is just at the unlucky age, thirteen, and in addition to his papers lets people know that he is ready to "shine 'em up."

John Oell is 15 years old and has put in three years on the route.

Charles Brown, John George, Mike George, Bert Rutter and Lou Fardy are from 10 to 14 years and have been in the service for less than two years.

One of the bright boys of the Janesville lot is little Elias Hatoun, a Syrian who came from Jerusalem to this country two years ago. He is 12 years old and has been selling papers for the past year. He speaks the English language quite well.

Harry Collins has put in four of his fifteen years hustling with the dailies.

John Marshall, the "infant," commenced selling papers when eight years old and the two years since have added much to his knowledge of the ways of the world.

James Haggart is his brother's right hand man and expects to own a whole route himself some day. He has been in the service six years, commencing when he was eleven. He delivers the local papers and goes to school after delivering.

LENTZ-BREHMER JURY DISAGREED

The Celebrated Fifth Ward Family Rumpus Is Still Unsettled.

How much money Mrs. Lentz has due from Martin Brehmer for board, washing, etc., is still unsettled. The case went to the jury at 4:05 o'clock Saturday afternoon and at 7:15 they called for the judge, announced their decision, and were discharged. The case will come up for another hearing on February 13. The case was the sequel to the one recently tried before Judge Bennett, wherein the court ordered Mrs. Lentz to turn over a five hundred dollar government bond to Brehmer, and was brought to recover on a counter claim put in for Brehmer's board, washing, care, etc. The attorneys had a number of lively tilts over the different points in the case. William Smith and George G. Sutherland appeared for Mr. Brehmer, while William Byrne looked after Mrs. Lentz' case.

Mr. Byrne, especially, grew quite eloquent at one stage of the proceedings. Attorney Smith had referred to the complaint as a document that might possibly be upset on the ground of a flaw in its construction. As Mr. Byrne had drawn the document he naturally felt somewhat nettled at Mr. Smith's insinuation.

"I am here in behalf of my client," he explained, "I am here to stay. I am not going to be bluffed. I am the scholar or student that drew this complaint. I may not be as learned as some attorneys and perhaps I may make mistakes but I am here. My friend Mr. Smith here, is like a big cannon. He shoots a great big ball and makes a great big noise. On this point I differ from him. I am like a rifle. I don't make much noise and I shoot a small ball, but it goes straight. You can hear it go buzzing through the air but it is a business like sound and the ball always hits the mark."

These tilts between the attorneys made much fun for the spectators, and the audience included many other lawyers who were interested in the contest on the propositions of law argued.

The case of the state against Frank G. Edwards, who is charged with beating his hotel bill, was called in the municipal court this morning and continued until Feb. 13.

DR. O. O. BAINES NEW POSITION

Rise Of the New Member Of the Illinois State Board Of Health.

Dr. Oscar O. Baines, son of W. B. Baines of this city, is receiving many congratulatory notes from Janesville friends over his appointment as a member of the Illinois State Board of Health. The Chicago Herald says:

"Dr. Oscar O. Baines, whom Governor Altgeld has nominated to be a member of the state board of health, is 31 years old. He was born in Ohio and is a graduate of Bennett Medical college. He is at present professor of obstetrics and secretary for Bennett Medical college, gynecologist at Cook county hospital, Bennett hospital, and attending gynecologist at the Baptist hospital. He is a member of the Chicago Eclectic Medical and Surgical society, the Illinois Eclectic Medical society and of the National Eclectic Medical association.

"His early education was received in country schools in Ohio and Wisconsin and he graduated from the Janesville high school six months before he commenced to attend Bennett Medical College of this city, from which he graduated at the head of his class in 1885. He has been active in church work and is an ex-president of the North Side Christian Endeavor Union. He is a member and one of the officers of the Lincoln Park church, and assistant superintendent of the Sunday school. Dr. Baines' wife was Miss Ida Christie, and is the daughter of Angus Christie, cashier for S. E. Gross & Co.

IMPOSE ON SHOE MANUFACTURERS

Firms All Over the Country Are Clamoring For Relief.

"Shoe manufacturers all over the country are agitating the questions that were outlined in the article that you published Saturday night," said a local manufacturer this morning.

"The conditions are a good deal as you outlined them 'only more so.' For instance, we once got a letter from a firm that buy goods of us saying: 'We know that you, or any other manufacturer do not warrant patent leather, but here are two pair of shoes that a woman bought of us. The patent leather cracked inside of a week and we do not think we ought to stand it so we return them to you.' The shoes cost \$2.75 a pair each and we had to give the firm credit on account as they owed us and there was no other course to adopt. That deal took \$5.50 out of us and there are many parallel cases. The article may have been somewhat misleading as it does not apply to local dealers and the remedies outlined are not yet in force, but the statement of facts is correct."

Japs Are Trained Fighters.

An English naval officer writing home says, alluding to the remarkable prowess shown by the Japanese in the capture of Port Arthur: "They would make very bad enemies. We could smash them at sea, probably, but we could do nothing against Japan on land. We can teach them nothing in military science. They are masters of modern scientific warfare. The capture of Port Arthur was a perfect revelation."

CASH FOR THE CITY TO BE THIER THEME

"FINANCIAL RELIEF" COMMITTEE WILL MEET TONIGHT.

Whatever Course They Recommend Will Probably be Adopted—Many People Think the Three Per Cent Limit is Too High, While Others Think it About Right.

Steps toward financial relief for the city will be taken by the special committee appointed by the mayor at the meeting at the council chamber tonight and it is a foregone conclusion that whatever this committee finally agrees to, will be adopted. The most important question is that of finance. It is claimed by all who are familiar with city matters that more funds are required to run the city government than can be raised under the charter, and the question is whether to seek relief by getting some general law passed, or one permitting the adoption of a portion of the general charter.

The Kimball bill which is now pending before the legislature limits the tax to be raised to 3 per cent of the valuation, the same as in the general charter act. Many people claim the 3 per cent limit is too high, and that it should be lowered to at least two and one half per cent. This matter will receive special attention at the hands of the committee.

Another important question will be that which relates to adopting the uniform charter, or a part of it. It is claimed by many that Janesville should have a larger representation in the county board, and in order to gain this must adopt so much of the charter as would allow the council to increase the number of wards.

The committee, being composed of citizens familiar with the requirements of the city, will investigate all these questions, and the conclusion reached will no doubt meet with general approval.

NOVEL AND GENEROUS.

The Act of a Life Insurance Company In Considering a Lapsed Policy.

Henry Arensmeyer, superintendent in Racine and vicinity, of the Metropolitan Life Insurance company of New York, received a telegram from headquarters ordering him to file the claims of Mat Fiesch, the young man who was killed by a railroad accident in Kenosha last Tuesday morning, but had allowed his policy to lapse by non-payment of premium. It thus appears that the policy will be considered, although in reality the heirs have no claims on the company whatever. This will be good news to his parents who are people of limited means, and to whom the sum will prove a great help. They will have reason to bless the generosity of the company, as such an act is extremely rare with insurance corporations.

It pays to take out a policy of life insurance in such a company. There are 600-650 policy holders in this city in the above company, represented by L. Black, assistant superintendent and his agents, with office at 67 West Milwaukee street.

SOME WELL KNOWN FACES
The Author of "Ben Bolt."
One of the most interesting of the numerous members of the Fifty-third congress who have been elected to stay at home is Thomas Dunn English of Newark, N. J., author of the famous song, "Ben Bolt." The verses were written at the request of N. P. Willis, and their author had a very poor opinion of them.

THOMAS DUNN ENGLISH.
They were first published in The New Mirror Sept. 25, 1843, and at once achieved great popularity. Dr. English was born in Philadelphia June 29, 1819, and has had an active career in medicine, law, literature and politics.

The Best Dressed Man in New York.
The best dressed man in New York is the proud title which the admiring friends of young Mr. Lorillard Kip have bestowed upon him. He of course draws his tailoring inspiration from London, but his clothes are made in New York. His high hats and boots, however, are made on the other side. Like the Prince of Wales, Mr. Kip has his silk hats made on his own block in London, and they are always of the same shape—short, broad crowned and wide brimmed. He

MR. LORILLARD KIP.
never wears a hat that has not been freshly ironed. His frock coats reach to his knees, are well cut in at the waist, and the instant he doffs a suit it is pressed by his valet. He has about 40 pairs of trousers in a season and rarely wears the same pair twice a week. He always wears patent leather shoes and wears very little jewelry.

Consul Jewett of Sivas.
Milo A. Jewett, American consul at Sivas, Turkey, whose appointment as a commissioner to investigate the Armenian outrages was recently overruled and rejected by the sultan, was born at Sivas 38 years ago. He is a son of Dr. Fayette Jewett, who for ten years was

a medical missionary at Sivas under the American board. Early in life he came to the United States and was educated in Massachusetts. He is a graduate of the Harvard medical school and in 1893 was appointed consul at Sivas to succeed his brother, Henry M. Jewett, who is now doing newspaper work in Everett, Mass.

A Girl Miner.

Miss Nellie Cushman is a mining expert in Arizona, and the grizzled veterans at Tombstone will bet on her judgment every time. When she was a girl of 17 in Dodge City, Ia., she concluded that her sphere was not domestic, and that the rough life of a miner was about what she wanted. So she went to Tucson, where she began examining ore as it came from the mines. Her brother James was a mineralogist and foreman of a big mine, and under his tuition she soon became an expert. Then she began following the mining camps, and whenever a new strike was made she was sure to be the first woman at the scene. When the rush to Maricopa Hala began and 1,500 men located at the camp in a very short time, she was the sole representative of her sex among them. When prospecting, she wears heavy shoes and bloomers.

NELLIE CUSHMAN.

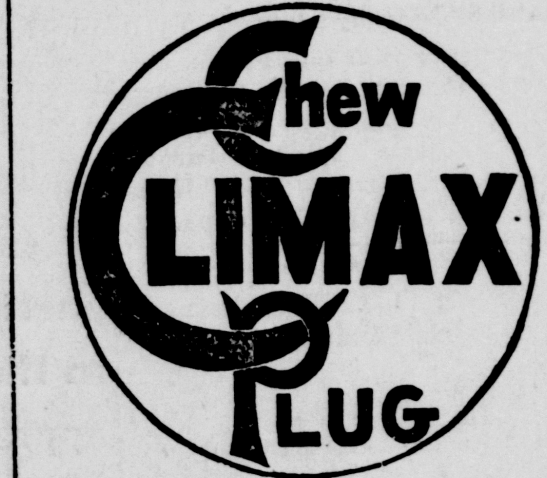

FIRST QUAKER CHURCH.
It Was Erected in England in the Year 1689.
The Quaker meeting-house of Swarthmore, England, was erected about the year 1689. It is not easy to say which was the first meeting-house, but there were several prior to that date. In early years Quakers often held their meetings in private houses—in Swarthmore hall, for instance. In Norton, near Stockwell, as early as 1660; in South Shields, 1661; in Ireland the first "settled meeting" was held in William Edmundson's house in Lagan some time about 1654. If the question refers to meeting-houses, not to dwellings, it may be said that at Gateshead, in 1656, George Fox met his followers in a house in Pipewellgate, now the Fountain inn, and that in 1660 another meeting-house was used in High street, now Powell's almshouse, which was given up soon after the Quakers had a meeting-house in Pilgrim street, Newcastle. According to a book called "Friendly Sketches," Sunderland had a meeting-house in 1687. It is recorded that a score of years before at York soldiers kept the Quakers "out of their own hired house." There are several instances of district meeting-houses earlier than that of Ulverston, but these latter references may be more interesting.

Special Tax Notice.
State of Wisconsin, county of Rock, ss. Jan. 16, 1895. To whom it may concern. I hereby give notice that I intend to make application to the circuit court for the county of Rock on the first day of the January term to be held in the court room in the city of Janesville on the 28th January 1895, at 10 o'clock a. m. of that day or as soon thereafter as the same can be heard for a judgment against the several lots, lands, pieces and parcels of lands described in a report there and then to be made and filed with the clerk of said court for the unpaid special taxes for paving East and West Milwaukee, streets levied by the common council of the city of Janesville in the year 1894, and all persons interested therein are requested to attend such term of said court and offer their defense, if any they may have, to such application.
JAS. A. FATHERS,
Treas. City of Janesville.

Poor Indeed!
The prospect of relief from drastic cathartics for persons troubled with constipation is poor indeed. True they act upon the bowels, but this they do with violence, and their operation tends to weaken the intestines, and is prejudicial to the stomach. Hostetter's Stomach Bitters is an effective laxative, but it neither grips nor enfeebles. Furthermore, it promotes digestion and a regular action of the liver and the kidneys. It is an efficient barrier against and remedy for malarial complaints and rheumatism, and is of great benefit to the weak, nervous and aged. As a medicinal stimulant it cannot be surpassed. Physicians cordially recommend it, and its professional endorsement is fully borne out by popular experience. Appetite and sleep are both improved by this agreeable invigorant and alternative.

If the Baby is Cutting Teeth.

Mr. Gabbler, who talks much and recklessly, was sitting at a dinner party by the side of Mrs. Portly Pompous, who is very old and fat. During the conversation Gabbler, forgetting that the lady weighed two hundred and fifty pounds, said: "I despise fat women." He perceived at once what a bad break he had made, and attempted to set himself aright by saying: "I beg your pardon. I despise fat women, but only when they are young."

The look Mrs. Pompous gave him will haunt him in his grave.—Texas Siftings.

Toughest Man in Deadgulf.
Cholly Tenderfoot—Have you any desperate characters around here now?
Driver (of Deadgulf coach)—Ya-as; Alkali Ike's purty tough.

Contrast.
The dude in swell attire was commenting adversely upon several well-known men in Washington who wore slouch hats.
"Why," he said to the man next to him, "do they wear those soft hats?"
"For the sake of contrast," was the reply, "just as you wear a hard one."—Detroit Free Press.

The Mystery.
First Depositor—I suppose there's no telling how the bank's money went.
Second Depositor—Oh, yes! That has all been cleared up. There's only one thing that isn't clear, now.
First Depositor—What is that?
Second Depositor—How they came to leave any assets.—Puck.

Keeping Them Married.
Stranger—I am told that it is easy for a woman to get a divorce in this state, but difficult for a man to get one.
Citizen—Yes, we made it difficult for the men, so as to discourage them when they thought about it, and we made it easy for the women so they wouldn't care about it.—N. Y. Weekly.

Didn't Suit.
Mrs. Sweet—I hear your son is engaged.

Surprised Him.
She—Do you remember that you said you would do anything I asked when I promised to marry you?
He—Yes, but I didn't know then how much spare time a woman had to think up things to ask for.—Cincinnati Tribune.

A Correct Answer.
Mrs. Gabber—They make an awful lot of talk about women not being able to keep a secret. What if they ain't? What is there in a secret, anyway?
Mrs. Mild—Nothing to speak of.—N. Y. Press.

Quite Natural.
Higbee—It seems strange that all the patent medicine testimonials are written by women.
Mrs. Higbee—There is nothing strange about it. No one would believe a man under oath.—Brooklyn Life.

An Inevitable Combination.
"Tommy Affback is going out after 'ame in life."
"How's that?"
"He was a football player and now he's joined a college glee club."—Chicago Record.

Helen—I've been trying for two years to make him speak.—Life.

BODYGUARD.

Parisian Swindlers Take Strange Measures to Protect Themselves.

An exciting scene has been witnessed in Paris at the arrest of a female swindler. It was at a nicely situated house standing in its own grounds, that has been for some time in the occupation of a man and woman who made a business of striking up an acquaintance with wealthy strangers and entrapping them to the place in order to rob them. The last victim was an American, who had a pocketbook containing 30,000 francs (\$6,000) stolen from him.

The matter was thought important enough to merit the special attention of M. Cochefert, the head of the Paris detective police, who went to arrest the incriminated persons. He was accompanied by several policemen. On arriving at the house he rang the bell for some time, but got no answer. He then sent for a locksmith, who was proceeding to open the door when alarming growls were heard from inside. It was then found that there were six enormous house dogs in the passage.

M. Cochefert, however, was not to be balked. He sent for some sheep's heads, which were thrown to the dogs to keep them quiet, and an entrance was then effected. The woman was arrested, but the man had flown. The house was full of the proceeds of different robberies.

CANON HOLE AND HIS G'S.
A Habit Which Does Not Obtain With Most English-Speaking People.

Some of those who listened to Canon Hole's lectures are shocked to find that he does not sound the final "g" in such words as "running," "sleeping," "eating," and many others of that class, in which all the dictionaries agree that there is a "g" to be sounded.

But if the real language is the spoken language in the mouths of the people Canon Hole has ample precedent for dropping the "g"—or rather for refusing to pronounce it where it never did exist in the living—that is in the spoken—language.

The early English, like the modern Germans, refused to pronounce their final "n's" through the nose. They said "rainin'" and "runnin'"—not "raining" and "running."

The Normans, however, did pronounce all the final "n's" through the nose, and the presence of the "g" in "running" as it is spelled in the dictionaries is due to that habit of theirs. But in spite of the Normans and the dictionaries the great majority of the English-speaking people, both in England and America, still refuse to allow their noses any share in the pronunciation of their present participles.

A RECORD

of cures such as no other medicine can boast of, has been won during the past 25 years by Dr. Pierce's Golden Medical Discovery.

The worst forms of Scrofula, Salt-rheum, Tetter, Eczema, Erysipelas, Boils, Carbuncles, Enlarged Glands, Tumors and Swellings, are cured by it.

Mrs. JOHN G. FOSTER, of 35 Chapin Street, Cambridge, N. Y., says: "I was troubled with eczema, or salt-rheum, seven years. I doctored with a number of our home physicians, also with Rochester, New York, and Philadelphia doctors, and received no benefit. I paid out hundreds of dollars to no purpose. I have taken ten bottles of the 'Discovery' and am entirely cured."

FROM ATLANTIC TO PACIFIC

Praises Come, Unlimited, Heralding the Success of One Woman's Work.

[SPECIAL TO OUR LADY READERS.]
From all sections of this great country. No city so large, no village so small, but that some woman has sent us her words of joyful thanks for health restored.

From San Francisco Mrs. Detwiler writes, from her Laurel Ave. home, that she unwisely left her room all too soon when her baby was born.

The result was an aggravated case of displacement of the womb that wholly prostrated her.

The doctors tried medicines, apparatus, and she suffered everything.

"I decided to try Lydia E. Pinkham's Vegetable Compound. The effect was wonderful, and, thanks alone to her, I am now well."

Mrs. Kate Morris, 100 Mulberry St., New York, says:—

"For years I suffered with womb trouble. I was so sick and nervous that I could not stand or sit, the pains through my back made me crazy. I tried several doctors but found no relief. I was advised to try your Vegetable Compound. I did, and to-day I am a well woman."

From far-away Texas comes word from Mrs. Jennie Arthur of the town of Taylor:

"I did not know what rest was for months. I was so dizzy and faint at times I thought I was dying, and, oh, how my back did ache! I am a living witness of the miraculous effects of Mrs. Pinkham's Vegetable Compound. Relief came with it at once. I sleep all night, and am now as well as ever in my life."

From the great state of Pennsylvania, Mrs. L. Travis, of Thurlow, tells a similar story of utter misery resulting from womb trouble; all the fearful results of this dread trouble was upon her when the Lydia Pinkham Vegetable Compound came to change the whole current of her life, and she ends up her letter by declaring: "I owe all to you." Thousands of other names are here. Let your faith lead you to the certain remedy for all your troubles. Your druggist has it for you.
